SanDisk Digital Photo Viewer

View and share your digital photos on TV—instantly!

SanDisk Digital Photo Viewer gives digital camera users the BIG picture.

You're looking at the fastest, easiest, and most convenient way to view your digital photos.

SanDisk, the world's #1 supplier of flash data storage for today's most popular consumer electronics devices, now makes viewing and sharing your favorite digital photos as simple as watching TV. Just sit back and relax in the comfort of your own home while you view your digital photos on TV.

SanDisk makes it easy. In more ways than one.

Everything about the SanDisk Digital Photo Viewer is based on the old adage that "simple is better."

- *Easy to use*—just plug it into the TV, sit back and enjoy
- *Easy to learn*—no PC, laptop or special software required
- *Easy to view*—the bigger your TV screen, the bigger your digital photos
- *Easy on the eyes*—smaller than a videotape, its subtle design blends with any decor

Take a good look. You'll like what you see.

- *Convenient*—The best way to view digital photos directly on your TV screen
- *Easy to use*—Simply remove the memory card from your camera and put it into your Digital Photo Viewer
- *Automatic slide show*—Turn it on, insert your memory card, and it automatically displays the images as a slide show
- *Full-featured remote control*—Rotate, zoom in, and view several pictures at once
- *Displays pictures from cameras up to 6 megapixels in JPEG format*—the most common form of file format used by digital cameras
- *Compatible with the most popular memory card formats*—CompactFlash® Type I and II, SmartMedia™, Memory Stick®, SD™ and MultiMediaCard memory cards

- *Fast picture-to-picture viewing*—Virtually no waiting time between photos shown on the TV
- *Small, compact and lightweight*—Sized just right, making it easy to view photos wherever you want
- *Displays on screen text in multiple languages*—English, French, Spanish, German, Italian, Chinese and Japanese
- *Switches between NTSC and PAL TV formats*—Depending on your location, it works with both types of TV standards
- *Includes two video cables and power supply*—No need to purchase additional items for setup
